# THE BRUNSWICK PHARMACY,

S. W. COR. BROADWAY AND 34TH ST., NEW YORK.

"ALWAYS OPEN."

EMLEN PAINTER, PH.G., - - CHEMIST.

Thoroughly qualified and Registered Pharmacists in attendance at all hours day and night.

TELEPHONE CALL, 821, 39TH STREET.

To the Medical Profession of the City of New York:

The undersigned has introduced a new feature in the *Drug Business*, with the view of establishing a more perfect system in the dispensing of physicians' prescriptions, and of securing the greatest degree of excellence in this department.

He has separated the *Pharmacy proper* from the purely mercantile portion of the business, removing the former to the adjoining store on 34th St., which has been fitted up in the most approved manner adapted to the requirements of to-day.

He has also inaugurated a more complete system of assaying and analyzing drugs and chemicals as they come into requisition in the pharmacy.

The Medical Profession as well as pharmacists are cordially invited to inspect this pharmacy in the details of its work, which will at all times be shown with pleasure.

The undersigned further tenders his services to the profession in such experimental and analytical work as may be required.

Very Respectfully,

EMLEN PAINTER.

The vital principles of Beef concentrated. A highly condensed Raw Food Extract. Acceptable to the most delicate taste and smell. It does not become putrid, as ALL OTHER raw foods do. Retained by irritable stomachs that reject all other Foods. It assimilates more readily than any other Food known to the Medical Profession. Bovinine, under the microscope, shows the blood-corpuscles in their normal conditions strongly marked, while in other Foods or Extracts this vitally important element is destroyed by the action of heat in cooking.

---

In all disturbances of the intestinal tract accompanied by gastric irritation; in cancer of the stomach or rectum; in supplying the waste of albuminuria; in the marasmus of infancy or old age; in scrofulous conditions; in phthisis, and in so-called dyspeptic conditions, Bovinine will be found of signal service, securing better nutrition and assimilation, and alleviating the conditions present. Bovinine is a *raw food* and is neither partially nor wholly digested, so that, when given in cases of enfeebled digestive powers, it does not still further increase the inability of the gastric forces to perform their work, but restores them by its physiological stimulation to their normal effectiveness.

## AUTOMATIC REGULATION OF TEMPERATURE IN HOUSES, OFFICES, HOSPITALS, SCHOOLS, CHURCHES, &c.

HEALTH.
COMFORT.
ECONOMY.

This apparatus can be readily placed in any house, large or small, old or new, city or country, and be attached to any kind of heater ever made, be it steam, hot air, hot water, natural gas, or anything else.

The heat is automatically, accurately and positively controlled and any desired temperature maintained, insuring health, comfort and economy.

HEALTH.
COMFORT.
ECONOMY.

This appliance is used and approved by many of the best people in America, among them the following in New York City:

**T. Gaillard Thomas, M.D.,**
**Mr. Elliott F. Shepard,**
**Mr. Sidney Dillon,**
**Rev. John Hall, D.D.,**
**Mr. J. A. Bostwick,**
**Mr. Wallace C. Andrews,**
**Mr. Donald Mackay,**
**Mr. J. J. McComb,**
*Dobb's Ferry.*

From Dr. William Mason, Emeritus Professor of Physiology and Microscopy in the Medical Department of the University of Buffalo.

DEAR SIR:—Your favor of the 5th inst. is at hand. It gives me great pleasure to reply to your inquiries regarding the efficiency of the apparatus which you put into my house last fall. I have nothing but praise to say of it.

This winter has been an unusually severe test of its value. The changes of temperature have been very frequent, sudden, and great in degree. Yet throughout this change, from ten degrees Fahr. below zero to fifty degrees above, your apparatus has maintained a steady, constant temperature of from seventy degrees to seventy-five degrees, as we wished, inside the house, and this without any care or responsibility on the part of the inmates, every door in the main part of the house having been open all winter.

In fact, I have had the only perfectly heated house that I ever saw, and such has been the verdict of all who have entered it. I feel that it is impossible to recommend your apparatus too highly, both as a means of promoting the comfort, and especially of preserving the health of the community. I consider that its introduction into schools, churches, public halls, etc., is one of the absolute necessities of the near future.

Very truly yours, WM. H. MASON.

Illustrated explanatory circular containing additional testimonials and references will be mailed on application.

We request your perusal and investigation of the subject, feeling sure that you will not regret the small expenditure of time requisite.

# PIL. SALOL, "W. H. S. & CO."

## 2½ AND 5 GRAINS EACH.

THE NEW REMEDY FOR RHEUMATISM AND RHEUMATIC AFFECTIONS, DIARRHŒA, DYSENTERY, TYPHOID FEVER, ETC.

"SALOL," or "Salicylate of Phenol," was first produced by Professor von NENCKI, of Berne, and brought to the attention of the medical profession in a communication by Dr. SAHLI to the Medico-Pharmaceutical District Society of Berne, at its meeting held in that city, on April 6th, 1886.

Salol is composed of 40% of Phenol (Carbolic Acid), and 60% of Salicylic Acid; a very faint odor of Carbolic Acid is characteristic of pure Salol.

This valuable remedy was introduced by us to the medical profession about a year since, to whom we offered it in pill form in strengths of 2½ and 5 grains to each pill.

Our pills of Salol were first submitted to the most eminent practitioners of New York and Brooklyn, for the purpose of determining their properties by practical tests; *and from all, without exception, who had an opportunity of making a trial, we received the assurance that its action was successful and speedy, and free from the objectionable effects of the Salicylic Salts.*

These physicians tested it not only upon their patients, but upon themselves, and the prevailing opinion was that the best results were obtained from doses of 5 grains every hour at first, afterwards the same quantity every other hour.

Since then, Salol has attracted almost universal attention, and the experience of the profession abundantly confirms the original testimony as to its phenomenal curative properties in Rheumatism and Rheumatic affections.

It has also been demonstrated that the use of Salol in the treatment of Diarrhœa, Dysentery, Typhoid Fever, etc., has met with a marked success.

We have published a revised "Treatise on Salol," which contains valuable information regarding the therapeutic properties of this new remedy. This Treatise will be mailed on application.

# WARBURG'S TINCTURE,

## As Prepared by W. H. Schieffelin & Co., New York.

WE beg to call attention to this article as prepared by us for several years past, and which has attained a large sale.

There is so much testimony as to its extraordinary virtues in Malarial Fevers that its powers can scarcely be questioned. At first a proprietary medicine, its formula was afterwards revealed by a voluntary act of its inventor, Dr. CARL WARBURG, late of Vienna, but now of London.

OUR WARBURG'S TINCTURE

is prepared in accordance with the original formula, except that Confection Theriac Ph. G is substituted for Confection Damocratis—an unofficinal and impracticable preparation, some ingredients of which are nowhere obtainable. Put up in 1 lb., ½ lb., ¼ lb., and 1 ounce bottles.

We also prepare PIL. WARBURG'S TINCTURE (with or without aloes), (representing one-half drachm each), Bottles of 100 Pills.

# EXCERPT FROM AN ORIGINAL LECTURE

—ON THE—

# TREATMENT OF DYSPEPSIA.

**By WILLIAM MURRELL, M.D., F.R.C.P.**

(*Report of Lecture delivered at the Westminster Hospital, London.*)

"Pepsin was of great value in the treatment of dyspepsia, if certain points were attended to in prescribing it. It would not do to simply write down 'Pepsin.' Pepsin by itself unqualified has no meaning, and it was essential to indicate distinctly what brand of pepsin was required."

The lecturer stated that "during the last two years he had carefully tested all the pepsins of which he had been able to obtain specimens. The results were simply startling. Of two different kinds of pepsin, equally popular and equally well known, one was found to be five or six times as active as the other."

"The best pepsin was 'Fairchild's.' Bullock's come next and then Squire's."

"The French and German pepsins were a long way down in the list, and could not be compared for one moment with either the English or the American."

"Of late years a great deal has been written about carica papaya as a digestive agent; but, as a matter of fact, papaw juice could not compare in activity with the best pepsin."

"The best pepsin examined had about half the activity of the best pepsin, as shown by experiments made both in acid and alkaline solutions."

"The plan of predigesting milk and other articles of food with pancreatic extract answered admirably, and should always be resorted to in intractable cases." *MORAL.—Prescribe Fairchild's Pepsin.*

## ESSENCE OF PEPSIN

(FAIRCHILD).

*A Solution of the Essential Organic Ingredient of the GASTRIC JUICE, Extracted Directly from the Peptic Glands of the Stomach.*

This Essence of Pepsin is highly recommended where a fluid and agreeable form of pepsin is desired. It is especially eligible for administration to infants in vomiting and indigestion. It contains but a slight trace of acid, not perceptible to the taste; *whenever this is indicated, the proper acid can be added, and in the amount required.* The very decided acidity invariably found in the ordinary wines, elixirs, etc., of pepsin, is of very questionable utility therapeutically. It is certain that there are cases, especially of children, in which acid is not only undesirable, but positively hurtful.

A teaspoonful just before or after food will be found to aid digestion and assimilation; also, recommended at any time when suffering from indigestion. In the occasional distressing attacks to which chronic dyspeptics are subject, a few doses will afford the most happy relief.

# Quinine .·. Chocolates

(REGISTERED IN U. S. PATENT OFFICE.)

THE Chocolate used in the preparation of these tablets disguises the bitter taste of the Quinine without, in the least, impairing its therapeutic value. They are suitable in the entire range of conditions where Quinine is indicated, but are especially recommended in the sub-acute and chronic forms of malaria, characterized by headache, neuralgia, loss of appetite, and general *malaise*. They are quite palatable to children, and, for this reason will be found invaluable in entero-colitis, and other spring and summer complaints; or, as a restorative tonic in all cases of debility. The Chocolates are unequaled as an elegant and reliable prophylactic for persons residing in, or passing through malarial districts. Each tablet contains one grain of tannate of quinine; the dose, therefore, ranges from one or two daily, to a dozen or more, repeated as often as necessary, according to circumstances, or as directed by a physician.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

# ABSTRACT OF THE MEDICAL LAW OF 1887.

§ 2. From and after the date of the taking effect of this act, no person not theretofore licensed or authorized to practise physic or surgery in this state shall be deemed so licensed or authorized except one of the three following classes:

First. All who shall have been graduated from an incorporated medical school or college in this state with the degree of doctor of medicine, after substantial compliance with all the requirements of the general laws and of the charter of said corporation regulating the term and amount of study, attendance and attainment requisite to obtain said degree; provided that no person shall receive the degree of doctor of medicine, or be licensed to practise physic or surgery in this state unless after the age of eighteen he shall have pursued the study of medical science for at least three years, in a chartered medical school or with some physician or surgeon duly authorized by law to practise physic or surgery; and shall have attended two complete courses of lectures in some legally incorporated medical school or college, in good standing at the time of such attendance, prior to the granting to him or her of a diploma or license; provided, further, that two courses of lectures, both of which shall be either begun or completed within the same calendar year, shall not satisfy the above requirement.

Second. All who have received said degree from the regents of the university of the state of New York, after substantial compliance with the legal requisites preliminary to its attainment, and after examination by a legally constituted board of medical examiners of this state.

Third. All who, having been graduated from incorporated medical schools or colleges without the state as doctors of medicine, or licensed to practice physic or surgery under the laws of those European countries in which said degree does not confer the right so to practise, shall procure their diplomas from said corporations or their licenses from such countries, to be indorsed by the faculty of an incorporated medical school or college within this state, or by the regents of the university on the recommendation of a legally constituted board of medical examiners of this state. Every such indorsement shall be in form of schedule A or of schedule B provided by the tenth section of this act. Every corporation or board so indorsing shall keep a record of their indorsements, and may require applicants to verify their statements under oath; any indorsement made with fraudulent intent, or gross carelessness or ignorance, shall be deemed a misdemeanor, and shall subject the indorser or indorsers, upon conviction thereof, to a fine of two hundred and fifty dollars.

§ 3. Every person who, at the time this act shall take effect, shall be practising lawfully physic or surgery in this state, under the authority and license conferred by the laws then in force, but who shall not be then duly registered in the county where he or she practises; and every person who shall thereafter become lawfully authorized or licensed to practise physic or surgery in this state shall register in a book to be kept in the clerk's office of the county in which such practise is carried on, his or her name, residence, place and date of birth, and authority for practising as aforesaid.

§ 4. A practising physician or surgeon, having registered lawful authority to practise physic or surgery in one county, who shall remove his practice or part thereof to or regularly engaged in practice or open an office in another county, shall exhibit in person to the clerk of such other county, or shall send to him through the mail by registered letter his certificate of registration, and if such certificate shows lawful authority to have been registered, said clerk thereupon shall register said applicant in said latter county, on receipt of a fee of twenty-five cents.

§ 6. No person shall be licensed or permitted to practise physic or surgery in this state who has been convicted of a felony by any court of competent jurisdiction; and if any person who is or hereafter shall be duly licensed to practise physic or surgery in this state shall be convicted of a felony, as aforesaid, his or her license to so practise, if any, shall be revoked by the fact of such conviction having been had. Any person who shall willfully swear falsely to any statement contained in any affidavit made pursuant to the provisions of this act shall be deemed guilty of a felony, and subject to conviction and punishment for perjury; any person who falsely and without authority shall counterfeit, make or alter any diploma, certificate or instrument constituting a license to practise physic or surgery within this state, or any certificate or indorsement given in pursuance of this act, shall be deemed guilty of a felony, and be subject to conviction and punishment for forgery in the second degree; any person who shall practise physic or surgery under a false or assumed name, or who shall falsely personate another practitioner of a like or different name, shall be deemed guilty of a felony, and shall be subject to conviction and punishment for false personation; and any person guilty of violating any of the other provisions of this act, not otherwise specifically punished herein, or who shall buy, sell or fraudulently obtain any medical diploma, license, record or registration, or who shall aid or abet such buying, selling or fraudulently obtaining thereof, or who shall practise physic or surgery in this state under cover of a diploma or license that shall have been illegally obtained, or that shall have been signed or issued unlawfully or under fraudulent representations, or mistake of fact in material regard or who, after conviction of a felony, as aforesaid, shall attempt to practise physic or surgery in this state, and any person who shall assume the title of doctor of medicine, or append the letters "M.D." to his or her name, without having received the degree of doctor of medicine from some school, college or board empowered by law to confer said degree or title, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than two hundred and fifty dollars, or imprisonment for six months for the first offence, and upon conviction of a subsequent offence, by a fine of not less than five hundred dollars or imprisonment for not less than one year, or by both fine and imprisonment. Any person who, not being then lawfully authorized to practise physic or surgery in this state and so registered according to law, shall practise on or after the first day of October, eighteen hundred and eighty-seven, physic or surgery within this state without the license and registration provided for in this act, shall be deemed guilty of a misdemeanor, and on conviction thereof shall be punished by a fine of not less than fifty dollars for the first offense, and for each subsequent offense by a fine of not less than one hundred dollars, or by imprisonment for not less than one hundred days, or by both fine and imprisonment.

§ 8. Nothing in this act shall be construed to punish commissioned medical officers serving in the army or navy of the United States, or in the United States marine hospital service, while so commissioned, or any one while actually serving as a member of the resident medical staff of any legally incorporated hospital, or any legally qualified and registered dentist exclusively engaged in practising the art of dentistry, or interfere with manufacturers of artificial eyes, limbs or orthopedical instruments or trusses of any kind from fitting such instruments on persons in need thereof; or any lawfully qualified physicians and surgeons residing in other states or countries meeting registered physicians and surgeons of this state in consultation, or any physician or surgeon residing on the border of a neighboring state, and duly authorized under the laws thereof to practise physic or surgery therein, whose practice extends into the limits of this state; providing that such practitioner shall not open an office or appoint a place to meet patients or receive calls within the limits of the state of New York; or physicians duly registered in one county of this state called to attend isolated cases in another county, but not residing or habitually practising therein.

# STEVENSVILLE MILLS.

IMPEROYAL VACUUM COOKED OATS.

**M. D. Stevens**

IMPEROYAL VACUUM COOKED WHEAT.

ABSOLUTE PURITY.

HOUSEHOLD NECESSITY.

IMPEROYAL VACUUM COOKED HOMINY.

Room 18 New York Mercantile Exchange.

IMPEROYAL GRIDDLE CAKE FLOUR.

## ONE MINUTE IN PREPARATION.

I am now prepared to furnish the **M. D. STEVENS Imperoyal New Process Wheat and Buckwheat Flour** (being pure and free from Alum, Terra Alba, or any and every injurious ingredient) to the trade, in any quantity, having enlarged my facilities for manufacturing and preparing to meet the steadily increasing demand.

Its perfect purity and the uniform lightness of the Bread or Biscuit make it largely sought after by Dyspeptics and those suffering from every form of Indigestion. Can be used for all kinds of **Pastry, Bread, Biscuit, Griddle Cakes, etc.,** thus making it a necessity in every household, requiring but one minute in preparation, without salt, baking powder or yeast, and producing about thirty pounds more bread to the barrel than ordinary flour. No lady can afford to be without it, and its value for Steamships, Dining Cars, Yachting and Camping Parties in the Adirondacks or Yellowstone is apparent. Climate and temperature does not affect it.

The **Buckwheat Flour** is also the finest ever placed upon the market. Every package has my registered trade-mark on the side, and also on label on the end.

The rigidly maintained **high grade** of this **Flour,** the care taken in having only strictly **pure** and **healthful** ingredients used in its preparation, have justly given it the reputation, wherever it has been tried, of being

## THE BEST IN THE MARKET.

I am daily in receipt of testimonials of the most flattering character, showing how much this Flour is appreciated by my patrou sboth in the home and foreign market. No expense in experimenting, securing the best chemical and mechanical skill, or most approved machinery, has been spared to secure this result.

I make no attempt to compete with the low grade, inferior flour that floods the market, my aim being to produce the **BEST** only, and put it on the market at as low a price as can be afforded. Insist upon your grocer keeping it for you, as some have objected because it hinders the sale of other flour.

It is put up in 3 and 6 pound packages, each package bearing my registered trade-mark on the side and also on the label.

Address all orders to M. D. Stevens, Room 18, Mercantile Exchange, Cor. Hudson and Harrison Streets, New York.

THE PRELIMINARY SESSION will begin on Wednesday, Sept. 19th, 1888.

THE REGULAR WINTER SESSION will begin Oct. 3d, 1888, and end about March, 1889. To put the laboratories on a proper footing, a new building is being erected at an expense of one hundred thousand dollars.

UNIVERSITY BIOLOGICAL AND PATHOLOGICAL LABORATORY.—The Faculty, aided by generous friends, have enlarged the New Laboratory Building and established a Biological and Pathological Laboratory in connection with its Laboratory of Chemistry and Materia Medica. It is furnished with all the apparatus for the study of Bacteriology, and for special lines of investigation.

In addition to the ordinary clinics, *special clinical instruction*, WITHOUT ADDITIONAL EXPENSE, will be given to the candidates for graduation during the latter part of the Regular Session.

Each of the seven Professors of the Regular Faculty, or his assistant, will conduct a recitation on his subject one evening each week. Students are thus enabled to make up for lost lectures, and prepare themselves properly for their final examinations without additional expense.

THE SPRING SESSION will begin about the middle of March and end the last week in May. The daily Clinics and Special Practical Courses will be the same as in the Winter Session, and there will be Lectures on Special Subjects by members of the Faculty.

## FEES.

| | |
|---|---|
| For course of Lectures | $140 00 |
| Matriculation | 5 00 |
| Demonstrator's Fee, including material for dissection | 10 00 |
| Final Examination Fee | 30 00 |

# LACTOPEPTINE.

*The most important Remedial Agent ever presented to the Profession for*

DYSPEPSIA, VOMITING IN PREGNANCY, CHOLERA INFANTUM, CONSTIPATION, AND ALL DISEASES ARISING FROM IMPERFECT NUTRITION.

LACTOPEPTINE precisely represents in composition the natural digestive juices of the Stomach, Pancreas, and Salivary Glands, and will, therefore, readidy dissolve all foods necessary for the recuperation of the human organism.

## *LACTOPEPTINE*

IS COMPOUNDED WITH

GENTIAN, IRON, STRYCHNIA, BISMUTH, QUINIA, CALISAYA, CINCHONA AND PHOSPHATES,

and various medications required in general practice, in the form of ELIXIRS, SYRUPS, LIQUIDS, ETC.

---

### *SPECIAL NOTICE TO THE MEDICAL PROFESSION.*

Whenever satisfactory results are not obtained from the administration of Lactopeptine, we will consider it a favor if such facts are reported to us, for there can be no doubt that substitution of Pepsin or some of the cheap imitations of Lactopeptine has been practised, wherever the therapeutic activity of Lactopeptine is not uniformly demonstrated in its indications.

*I have made a comparative test of Fairchild's, Jensen's, Merck's and Golden Scale pepsins under exactly parallel conditions.*

*1200 grains of coagulated egg albumen with 8 oz. water and 40 minims acid hydrochloric c. p. were subjected to the action of 1 grain of pepsin for four hours at 105° F., each bottle being shaken at intervals of six minutes.*

*The better for comparison, I prepared one bottle with 1200 grains coagulated albumen, 8 oz. water and 40 minims acid hydrochloric c.p., and subjected it to the same conditions as the others, without pepsin.*

*The pepsins tested were purchased by me from reliable druggists in this city.*

*The above photograph plainly shows the digestion accomplished by each pepsin.*

*I consider Fairchild's greatly superior in activity.*
